

The Final Frontier – The book that boldly goes where no other book has gone before

Genesis of Man by June Austin the answer to life, the universe and everything in between ...

The low discounts offered on print on demand titles, combined with an inability to accept returns are the single biggest obstacles that authors of these books have to face. Author June Austin is therefore delighted to announce that her book, *Genesis of Man* has broken the mould, in more ways than one. This groundbreaking work, published by Authors OnLine Ltd, is now available direct from Gardners with a whopping discount of 40 percent on sale or return.

June said “*I am delighted with this move, which will help bring my book to a much wider audience. Book stores now have nothing to lose by ordering copies. I will continue to do everything in my power to publicise this important work.*”

In this book, you will read about characters of whom you have never heard before. You will explore the myths and legends surrounding the lost continents of Atlantis and Lemuria and Earth's hitherto unknown history, exploring the links between different civilisations such as ancient Egypt, Mesopotamia and the Mesoamerican Empires. You will gain deeper understanding into the origins of both spiritual and religious belief, and philosophical insights into human behaviour and evolution, exploring what it truly means to be human in an ever changing world.

This is an important and highly topical work in these turbulent times of great change. If you are ready to start thinking outside the box and explore the issues that really matter then this book is a must read.

Reviews

This is a very informative and well researched book. It is laden with scientific, Biblical and historical evidence to support its arguments. It would be ideal as a companion to academic studies in subjects such as theology, philosophy and the social sciences. If you have read and liked “The God Delusion” by Richard Dawkins, then you will love this book because it serves the opposite viewpoint.

The Self Publishing Magazine

About the Author

Author June Austin lives in Surrey, with her partner, Coran. She has a lifelong interest in ancient mysteries and spiritual philosophy and studied the history of ancient Egypt and Mesopotamia, as well as human origins via Birkbeck College in London.

June has had several articles published in various magazines and on the internet. She also acts as editor for her local community newsletter, Boxhill News. She has appeared on both British and American radio and also Korean television. She is a regular speaker throughout the Surrey area.
